"CBRCanada has delivered great digital and virtual outreach, engagement, and programming through the past year. Looking forward to any opportunities for in-person conferences and workshops."

-Anonymous

"Continue doing what you're doing...listening and responding to the community. I don't know what I don't know...but I do know that I continue to learn and grow from CBRCanada professional learning opportunities. THANK YOU!"

-Anonymous
Suggestions & Future Directions
1. Do more of what you are doing
   - Expand the network to be more pan-Canadian
   - Create collaborative initiatives guided by members and supported by CBRCanada
   - More informal events for sharing challenges and failures, not just success stories
   - Feature more case studies, member research, provide more training opportunities
   - More collaborations with various CBR initiatives around the country

2. Centre the community in community-based research
   - Provide free training and education
   - I think you should be mobilizing the community more
   - Bring small non-profits into the conversation
   - Knowledge Translation for those who work in industry rather than institutions

3. Provide more effective communication with members
   - The news page and webinar recordings could be better organized
   - Improve the map
   - Give more notice about upcoming webinars, and offerings
   - More clarity on the purpose and benefits of membership
   - Share more about various means of communication
Programming is based on members' input. Please reach out at any time with suggestions and feedback.
